

Puppy Plan

We would like to offer you the opportunity to take advantage of a **25% DISCOUNT** on Pre-Paid Health Services.

If the entire amount is *Pre-Paid on your first visit you will receive a 25% discount.*
 You may also divide your *Pre-Payment over the first and second visits for a 15% discount.*

We recommend that your puppy begin their vaccination series at 6 weeks of age. Remaining vaccinations are administered every 3-4 weeks until 4 months of age to stimulate the immune system. Vaccinations will prevent your puppy from contracting life threatening disease.

First Regional Animal Hospital highly recommends spaying or neutering your pet. There are many advantages to spaying or neutering your pet. If you have questions please discuss these with your veterinarian.
